

NOTICE TO ALL OPERATORS

RESUMPTION OF NIGHT PARKING OF HELICOPTERS (CHARGED PROVISION OF NIGHT- TIME SECURITY GUARD)

We are pleased to announce that the London Helicopter is able to resume overnight parking of helicopters following a recent suspension of this service.

However until full physical and electronic perimeter security arrangements can be reinstated upon completion of the redevelopment project it will be necessary for all overnight parking of aircraft to be supported by night-time on site static security guard cover at a flat-rate chargeable to the aircraft operator. The charge for the security guard cover will be in addition to normal parking charges as follows:

£250.00 (plus VAT) per overnight period

Minimum Notice of requirement:	24 hours
Cancellation Notice period:	6 hours

Where insufficient notice is provided of a cancelled requirement the charge will be payable in full

Where more than one operator wishes to park their aircraft overnight the costs will be divided and shared equally.

Helicopters can only be parked overnight by arrangement in advance provided sufficient notice is given and will continue to be left at owner/operators own risk. Where unforeseen technical or weather reasons cause the operator to leave their helicopter overnight and there is insufficient time to arrange security guard cover the helicopter will be left at the owners risk.
